

The Game of Chips – Game Instructions

English

NUMBER OF PLAYERS: 2 or more

EQUIPMENT: 10 chips, 2 dice, score cards

OBJECT: After 3 rounds, the player with the LOWEST score is the winner.

PLAY: Each player rolls the dice and the player with the high roll has first turn. The 10 chips are placed face up in front of the player. The player rolls the dice, then turns over or removes any chip(s) that match the total roll of the dice (SEE EXAMPLE).

Roll the dice again and pick from the remaining chips to match this total on the dice. Continue rolling the dice and turning over or removing chips until you cannot match the total on the dice with the remaining chips.

The total number on the remaining chips is that player's score for that round. Write down this number in the first space under the player's name on the score card. That player's turn is over. The next player(s) repeats the same process as the first player. A round is each player having one turn.

At the completion of three rounds, the player with the LOWEST total points is the winner.

EXAMPLE:
YOU ROLL
 (8)
PLAYER CAN TAKE ANY CHIP(S)
THAT TOTAL 8:
