EXAMPLE SETUP

PLAYING THE GAME

Gather essentials from Pusheen's house, and use them to take snapshots of your weekend fun! Each Snapshot card has a certain number of stars. **Collect 10 stars to win!**

This game is played in rounds. Each round, you'll follow these steps:

1 The player with the Pusheen figure places it on one of the spaces in Pusheen's house.

2 Starting with the player who placed the Pusheen figure and going clockwise, **each** player will perform all of these steps on their turn:

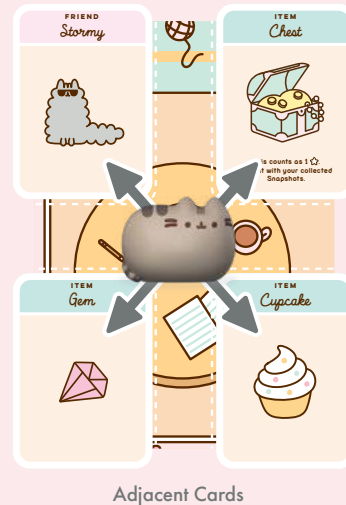

Take an Essentials card, either by selecting one of the cards **adjacent** to the Pusheen figure OR by drawing a card from the Essentials deck and putting it in their hand.

If it is an **ACTION CARD**, do what the card says immediately, then discard it. The player may take a face-up **Snapshot card** by discarding the required Essentials cards from their hand.

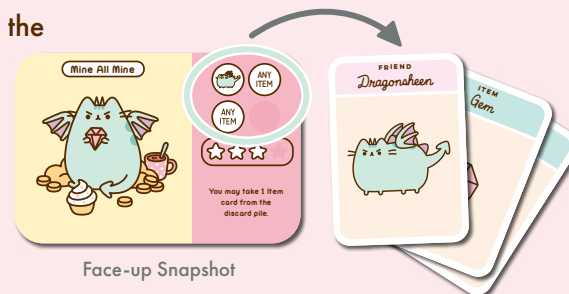

Any discarded cards should be placed faceup next to the Essentials deck in a discard pile.

Example: To take the Snapshot card "**Mine All Mine**", a player would discard a Dragonsheen and any two Items from their hand.

3 Check to see if any player has 10 or more stars ☆.

Adjacent Cards

Face-up Snapshot

- 4** If no one has 10 or more stars, draw and place cards from the Essentials deck to fill the empty spaces in Pusheen's house.
- 5** Draw and place cards from the Snapshots deck until there are four faceup cards below the board.
- 6** Start the next round! The player who placed Pusheen last round hands it to the player on their left.

THE CARDS

Essentials Cards

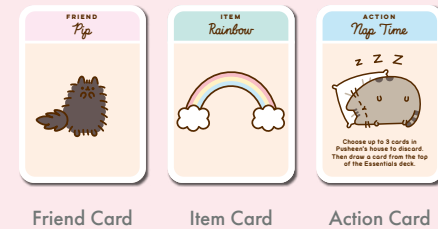

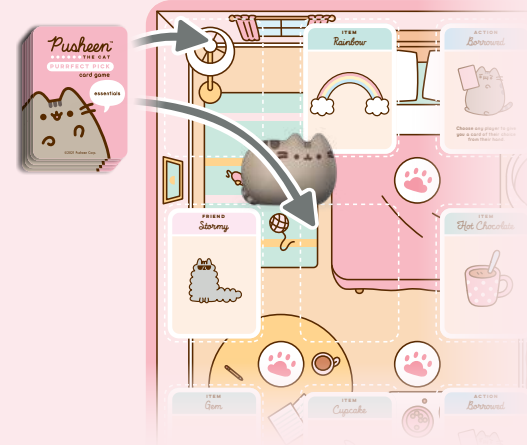

There are three kinds of Essentials: **FRIENDS, ITEMS, AND ACTIONS**. Keep Friends and Items in your hand when you take them and use them to take Snapshot cards. If you take an Action card, do what the card says immediately, then discard it.

There is no limit to how many cards a player can hold. If the Essentials deck runs out, shuffle the discard pile to make a new one.

Snapshot Cards

Take Snapshot cards by discarding the required Essentials from your hand. Each Snapshot has one or more stars. Collect 10 stars to win.

Some Snapshot cards provide a **special effect**. These effects can either be an, immediate effect or provide an ability for the rest of the game. Keep these with your other Snapshots where everyone can see them.

Special Effect

☆☆☆ WINNING ☆☆☆

At the end of the round, after everyone has had the chance to take an Essentials card and a Snapshot, check to see if any player has 10 stars. If so, the game ends and **the player with the most stars wins**. If any players are tied, they all win!
