

Cheeky Butts

Object of Game

To be the only player left with Chance Tokens!

Setting Up

1. Each player is given 3 Chance Tokens
2. Shuffle the cards and place them face down in the center of the table.
3. Divide the Cheeky Trays between all of the players:

# of players	# of trays per player
2	6
3	4
4	3
5	2 players / 3 trays each 3 players / 2 trays each
6	2

4. Everyone lines up their trays in front of them, animals face up.
5. Place the Randomized Timer off to the side, but in reach.

Let's Play a Round!

1. Decide who goes first—this person is the *active player*.
2. Start the game by pressing the timer.
3. The *active player* picks up a card from the center of the table, turns it over, and quickly places it into the tray with the matching animal.
 - If you place the card in the matching tray in front of you, go again!
 - If you place the card in another player's tray, they now become the *active player*.
4. Continue playing until the randomized timer goes off!

Example of 4 player game set up.

When the Timer Goes Off

If you are the *active player* when the timer goes off, you lose a Chance Token!

Next Rounds

1. All players shift one of their Cheeky Trays, along with the cards inside, clockwise, so that the leftmost tray is passed to the left player. That way, animals are always changing.
2. When a player loses all 3 Chance Tokens, they're out of the game. The remaining players then redistribute all trays according to the table in "Setting Up".

Winning

The last player with tokens wins the game and is the Cheekiest Cheeky Butts Champion!

Ifs, Ands, & Butts

- Players are considered the *active player* until they place a card in another player's tray.
- When placing cards in their matching trays, be sure the card stays inside the tray. Overhanging is okay, but if the card touches the table, the player who placed it is still the active player until they fix it.
- If there are not many cards left in the center of the table when a round ends, gather up all of the cards from the trays, and place them in the center of the table, face down. Mix them up well! The last *active player* starts off the new round.
- If all the cards get used up before the timer goes off, everyone is safe for that round.
- Dividing up the 12 trays in a 5-player round is a little tricky. We suggest that older or more experienced players get 3 trays while the youngest players get 2. Whatever makes everyone happy.
- It's fun to shout out something when you make another person the *active player*. We suggest "You're it!" or "Cheeky Butts!", but naming the animal, saying a silly word, or even making a funny noise will work.
